

Helping build successful
service organizations

Leadership Support Program

“Zzeem has provided a wealth of experience in governance and proven approaches and has been a sounding board and objective third party for our Chair, Vice-Chair and CEO. I recommend Zzeem to any organization looking for similar help.”

“Zzeem gets full marks from me. Thanks to Zzeem, our organization has taken a giant step forward.”

Zzeem helps organizations do more, in a better way, for the people that they serve.

BUILDS CONFIDENCE

Boards perform much more effectively when their leaders have the support resources to give them a high level of confidence in the execution of their role.

SHORTENS THE LEARNING CURVE

Often officers take on their leadership roles with little experience. It takes time for them to get up to speed.

This is particularly challenging when the Chair has a short term of service. Just as they are hitting their stride, they hand over the role to a new Chair who must go through the same learning curve.

The Leadership Support Program helps directors and officers get up to speed quickly with a custom training program.

ACCELERATES LEADERSHIP GROWTH

The Leadership Support Program builds confidence and accelerates leadership growth in a confidential, supportive environment.

SUPPORTS STRATEGIC PLAN

Often the strategic plan sits on the shelf. Progress on the big picture gets lost in the day-to-day. The Leadership Support Program keeps the board focused on the Plan - ensuring you see results.
